

Superior Electro-Magnetic Locks (Grade 4)

The Deedlock superior range of electro-magnetic locks have been fully tested to TS010:2016 and meets the requirements of grade 4 holding force. The comprehensive system of magnets are suitable for a wide range of applications on internal and entrance doors or high traffic situations.

The range includes a single electro-magnetic lock with door status monitoring.

A Z & L bracket for inward opening doors and an L bracket for outward opening doors is available.

Ideal for improved security on external security doors, as a PAS24 test requires doors to be held securely with a minimum holding force of 4.21kn.
